CYBERWEEK AFRICA 2025

EVENT PREVIEW

COMPLIANCE BY DESIGN

AFRICA'S LARGEST EVENT TACKLING CYBERSECURITY

Attend and earn a Certificate and 28 CPD hours

www.cyberweekafrica.com

ENDORSED BY:

Over 2,000 professionals dedicated to advancing Africa's digital resilience.

The stakes are higher than ever: data breaches, regulatory penalties, and reputational damage are costing organisations and governments across the continent billions each year.

Across Africa, governments, regulators, and businesses are grappling with escalating cyber threats, regulatory pressures, and the challenge of digital trust. The stakes are high: breaches, penalties, and reputational damage are at record levels.

The solution? Compliance by Design — embedding security and regulatory standards at the very heart of digital transformation.

Now in its third edition, Cyberweek Africa has become the continent's largest and most influential cybersecurity and compliance event. In 2025, we are proud to host over 2,000+ senior leaders, policymakers, innovators, and practitioners at the Kenya School of Government, Nairobi.

Expect world-class keynotes, interactive workshops, breakthrough innovations, and unrivalled networking. Cyberweek Africa is more than an event — it's a movement shaping the future of cyber resilience and compliance in Africa.

We look forward to welcoming you.
