27–30 October, 2026 • Amphitheater, KICC, Nairobi –Kenya

Africa's largest event tackling cybersecurity, cyber crime & Ai.

2026 THEME:

CYBER THREAT INTELLIGENCE
IN THE AGE OF AI

www.cyberweekafrica.com

MINISTRY OF INFORMATION,
COMMUNICATIONS AND THE
DIGITAL ECONOMY

MINISTRY OF INTERIOR AND
NATIONAL ADMINISTRATION

CYBERPRO
GLOBAL

Ministry of Economy
and Industry
Foreign Trade Administration

UNIVERSITY OF NAIROBI

In Partnership With:

REPUBLIC OF KENYA

Over 2,000 professionals dedicated to advancing Africa's digital resilience.

The stakes are higher than ever: data breaches, regulatory penalties, and reputational damage are costing organisations and governments across the continent billions each year.

Across Africa, governments, critical infrastructure, businesses, and security teams are confronting an increasingly complex cyber landscape. As artificial intelligence accelerates digital transformation, it is also reshaping the threat environment enabling faster, more sophisticated attacks while creating new opportunities for proactive defence.

The answer lies in Cyber Threat Intelligence empowering organisations to anticipate threats, harness AI responsibly, and transform data into actionable intelligence that strengthens cyber resilience.

Now in its 5th edition, Cyberweek Africa has become the continent's largest and most influential cybersecurity gathering. In 2026, we are proud to welcome over 3,500 delegates, 300+ hackathon participants, senior government officials, policymakers, industry leaders, researchers, innovators, and cybersecurity professionals.

Experience world-class keynote sessions, expert-led discussions, immersive workshops, live technology demonstrations, breakthrough innovations, and unparalleled networking opportunities.

Cyberweek Africa 2026

Organizing Committee

info@cwa.ke

**What to expect
in 2026**

3500+
exhibitors

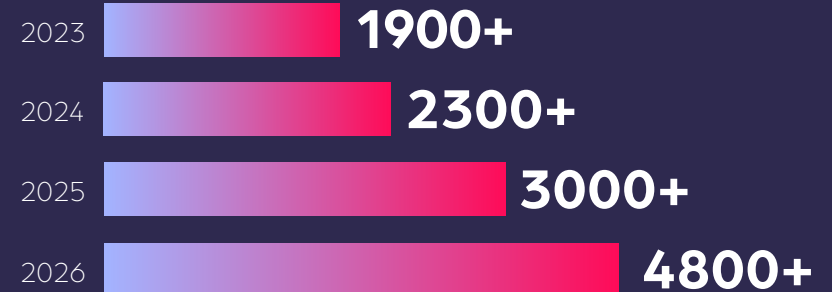

70+
speakers

15+
hours of networking

100+
VIPs representing
Government, Academia
& Industry Stake holders

Our audience continues to grow

**Our attendees find
value year after year:**

95%

of organisations that
attended in 2024
returned in 2025

**"A must attend event for everyone
working in Tech"**

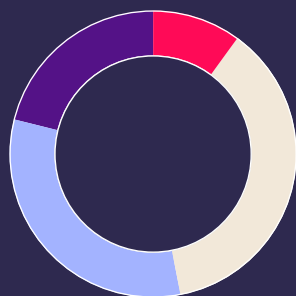

Cyberweek Africa is the leading platform to network, learn and collaborate.

You won't find a more senior and focussed audience anywhere else.

Supported by all regulatory and policy stakeholders including:

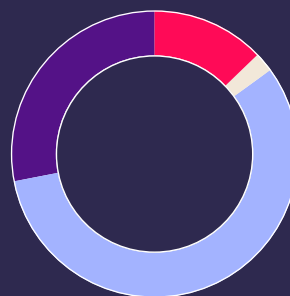

Meet an Audience like no other

47% of attendees are VP and above

C-level / Founder	10%
VP / Director / Head	37%
Manager	32%
Other	21%

Meet the decision makers

Government	40%
Academia	20%
Industry	30%
Information Gatherer	10%

Who attends?

- // C-Suite Executives: CIOs, CISOs, & More
- // Government Leaders & Regulators: Data Commissioners, ICT Ministries, Security Agencies
- // Advisors & Consultants: Compliance, Risk, Digital Transformation specialists
- // Industry Executives: Telecom, Banking, Fintech, & Critical Infrastructure
- // Researchers & Academia: Advancing Africa's cybersecurity knowledge economy

“Exceptionally well-organised event with a high calibre of speakers. A great opportunity to learn and network in the Financial Crime prevention space.”

Exploring AI-enhanced security tools, threat detection, and predictive defense mechanisms

Cybersecurity & AI

reshaping risk management and national security strategies.

Enterprise-grade security solutions and transformation

Industry Practice

empower businesses to scale securely and sustainably.

Building Africa's cyber talent pipeline through structured academies

Workforce Development

inclusive mentorship, competitions, and university-industry collaborations.

2026'S CONFERENCE THEME CYBER THREAT INTELLIGENCE IN THE AGE OF AI

The Future of Cyber Resilience and National Security

Compliance by Design

strengthening national security, protecting critical infrastructure, mitigating evolving threats, and building lasting trust in an increasingly interconnected digital world.

Africa's largest cybersecurity and digital policy convergence

Public-Private Collaboration

designed to facilitate data sovereignty, regulatory alignment, and continental trust frameworks.

Cyberweek Africa speakers 2026

Join us From the 27-30 October, at the KICC, Nairobi - Kenya

Hon. William Kabogo
CS, MICDE

Eng. John Tanui, CBS
PS - MICDE

Dr. Raymond Omolo
PS-MINC

Prof. Nura Mohamed
Director General - KSG

John Mutunga
Founder and CEO
Cyberpro

Mr. Emmanuel Kimeu
MIDCE, ICT Security and
Audit Control

Preston Odera
Cyberpro Executive
Chairman

Dr. Josephine Mwanzia
Snr. Director KSG &
Conference Chair

Vera Obonyo
Director KSG-eLDI

Washington Okoth
MICDE, Secretary
ICT Infrastructure

Dr. Prisca Oluoch
Director, KSG

Col (Dr) James Kimuyu
Director - NC4

Boniface Asiligwa
ISACA Kenya
President

Steve Kariuki
Network Traffic
Analyst Profitap

Katherine Getao
Cyber Hygiene &
Governance Consultant

Stephen Mutie
Senior Cybersecurity
Analyst, MICDE

James Yogo
Deputy Director of CyberSecurity
Central Bank of Kenya

Dr. Melanie Garson
Assoc. Professor
International Security

Joylynn Kirui
Senior Cloud
Security Advocate

Gabriel Raicu
Rector at CMU &
Dir at MARCSOCE

Haider Chaundry
Enterprise Solutions
Architect, Mitsumi
Distribution.

Ronald Kirui
MD - Magal Security
Systems Limited, Kenya

Peter Orifah
Director Cyberpro
Global

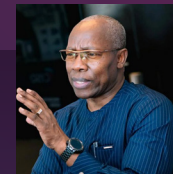

Andy Chadwik
Shadowserver
Director for Africa

Peter Moehring
Managing Director at
Security Network Munich

Dr. Lior Tabansky
Tel-Aviv University

Dr. Martin Koyabe
Senior Advisor GFCE

Sanjiv Sharma
Business Dev,
EC-Council.

Ahmed Haji Issack
General Manager
ICT, KenGen

Gentiana Serbu
Romanian Ambassador
to Kenya

Dr. Bright Gameli
Cybersecurity and
Blockchain intelligence
leader

Theophilus Lumor
Network Security,
Parliament of Ghana

Mercy Omolo
ISACA Kenya,

Moses Kariuki
Governance Risk and
Compliance professional.

DAY 1 – Tuesday, 27 October 2026

Government & National Security – Cyber Threat Intelligence as a National Security Asset

Time	Event
08:00–09:00	Registration & Networking Breakfast: Welcome tea, Exhibition walkthrough & B2B meeting check-in
09:00–10:00	Grand Opening Ceremony - H.E. William Gitau Kabogo - Official Welcome Address Cabinet Secretary, Ministry of ICT & Digital Economy - Ministry of Interior / (NC4) - Kenya School of Government - Academic Welcome - African Union Representative - Continental Cybersecurity Mandate - Universities Representative - Cyber Capacity Building - Cyberpro Global - Summit Vision
10:00–10:45	OPENING KEYNOTE: Africa's Digital Sovereignty in the Age of AI - Framing Africa's strategic position in the global cyber order - The intersection of cyber threat intelligence and national sovereignty - Africa's role in shaping global AI governance norms
10:45–11:15	Networking Break & Exhibition Tour - Official opening of the Expo Hall - AI Innovation Pavilion - National Cybersecurity Pavilion
11:15–12:30	MINISTERIAL PANEL: National Cybersecurity Strategies Across Africa - Participants: Kenya · Ghana · Rwanda · Nigeria · Botswana · Ethiopia · Senegal - How are African nations advancing national CTI capabilities? - Harmonizing policy frameworks across AU member states - Building trust between intelligence agencies and the private sector - Advancing Policy & Regulatory Reforms for emerging digital threats
12:30–13:30	Lunch & B2B Matchmaking Structured 1:1 meeting, Investor introductions, Partnership discussions
13:30–14:30	KEYNOTE: The Future of Cyber Resilience and National Security - AI-powered national security operations: opportunity and risk - The role of threat intelligence in proactive national defense - Case study: Building a national CTI platform from the ground up
14:30–15:30	PANEL: Critical Infrastructure Protection — Energy, Finance, Transport & Government - Strengthening National Cybersecurity Institutions - Cross-sector threat intelligence sharing frameworks - Incident response playbooks for national-level events - Enhancing National Cyber Resilience across critical sectors
15:30–16:00	Coffee Break & Networking

OPTIONAL BREAKOUT ROOMS - PARALLEL TRACKS

GOVERNMENT TRACK	POLICY TRACK
13:30–15:00: - Building National SOC's & Cyber Defense Capabilities - Architecture & tooling for national-scale SOC operations - AI integration in government SIEM and threat monitoring - Workforce development for government cyber operations - Funding and sustaining a national SOC 15:15–16:30: - Roundtable: Securing Critical National Infrastructure - Energy Water Transport Health Elections - Mapping national cyber threat exposure - Legal frameworks for CNI incident response 16:30–17:30: - National CERT Leadership Forum - CERT-to-CERT cross-border cooperation protocols - Operationalizing the AU Malabo Convention - Real-time threat intelligence sharing mechanisms	13:30–15:00: - Data Protection, Privacy & AI Governance - Harmonizing data protection laws across African borders - AI governance frameworks — balancing innovation and risk - Cross-border data flow regulations and digital sovereignty - Kenya's Data Protection Act as a regional model 15:00–16:00: - Advancing Global Cooperation in Cyberspace - Building Africa's Voice in Global Cybersecurity Governance - Bilateral cyber treaties and digital diplomacy - INTERPOL, AFRIPOL and cross-border enforcement - From Budapest to Malabo: Africa's convention choice 16:00–17:00: - Election Security & Democratic Integrity - Cyber threats to electoral systems across Africa - Influence operations and disinformation campaigns - Pan-African framework for election cybersecurity
18:00–20:00	Government Leaders Networking Reception - Hosted by the Ministry of ICT & Digital Economy - VIP bilateral meetings · International delegation lounge - Announcement of Africa National CTI Cooperation Framework

DAY 2 – Wednesday, 28 October 2026

Government & National Security – Cyber Threat Intelligence as a National Security Asset

Time	Event
09:00–09:45	KEYNOTE: Managing Cyber Threat Intelligence in the Age of AI - How AI is transforming threat detection, hunting, and response - The emergence of agentic AI in security operations - Balancing automation with human intelligence in CTI workflows
09:45–10:45	CEO FORUM: Cybersecurity as a Boardroom Priority - Moving from compliance to intelligence-driven security strategy - Board-level reporting on cyber risk and threat intelligence - Building cyber resilience into corporate governance frameworks
OPTIONAL BREAKOUT ROOMS PARALLEL TRACKS	
AI & SECURITY STAGE	CYBER THREAT INTELLIGENCE STAGE
11:15–12:15: PANEL: AI for Threat Detection, Hunting & Response - Machine learning models for behavioral anomaly detection - AI-powered threat hunting: tools, techniques, limitations - Generative AI in attacker toolkits: what defenders need to know - False positive reduction through AI augmentation 13:15–14:15: PANEL: Generative AI Risks, Governance & Regulation - AI hallucinations and security policy failures - Regulating AI in security: EU AI Act lessons for Africa - AI governance frameworks for African enterprises - National AI security strategies: a comparative view 14:15–15:15: Case Studies: AI Security Success Stories from Africa - Three African case studies — government, banking, telco - Lessons learned from AI-assisted incident response - Measuring ROI from AI in security operations	09:00–10:30: - Threat Intelligence Briefings - State-sponsored threats targeting African governments & CNI - Ransomware trends: Africa's most targeted sectors 2025–2026 - Financial sector attacks: mobile money, SACCOs, and FinTech - Supply chain threat intelligence: hardware and software risks - Dark web intelligence: Africa's underground economy 11:00–13:00: - Regional CERT Collaboration Forum - East Africa · West Africa · Southern Africa CERT roundtable - Standardizing IOC sharing across African CERTs - Real-time threat intelligence exchange platforms - Incident escalation protocols across borders 14:00–16:00: - African Cyber Threat Intelligence Exchange MISP platform training and adoption - Building Africa's first continental CTI sharing network - Public-private CTI partnership frameworks - OSINT methodologies for African threat landscapes

AI & SECURITY STAGE 11:15–17:00		CYBER THREAT INTELLIGENCE STAGE 09:00–17:00	
15:45–17:00: • LIVE DEMONSTRATION: AI-Powered SOC • Threat hunting in real time • Automated incident response workflows • AI SOC platform vendor showcase		16:00–17:00: • Closed-Door: Government Intelligence Briefing • By invitation government and CERT delegates only • Classified threat briefings from intelligence partners • Establishment of Africa CTI working group	
INDUSTRY SECTOR TRACKS 11:15 – 13:00			
Financial Services Security		Telecom & Cloud Security	Manufacturing & OT Security
• Banking & SACCO threat landscape • Mobile money fraud & SIM-swap • FinTech vulnerability intelligence • Central bank cyber risk frameworks		• 5G security threat vectors • Cloud infrastructure CTI • API security and misconfigurations • Telco as critical infrastructure	• Industrial Control Systems (ICS) • OT/IT convergence threats • Supply chain hardware risks • Energy sector CTI
15:00–16:00	Vendor Innovation Showcase • Cisco · Dell Technologies · Fortinet · Google · Microsoft · Huawei · Palo Alto Networks · CrowdStrike • Live product launches, Competitive briefings, Partner announcements		
16:00–17:30	Live SOC Demonstrations & Threat Hunting Lab • Hands-on exercises, Platform comparisons, Cyber range activities		

DAY 3 – Thursday, 29 October 2026

Government & National Security – Cyber Threat Intelligence as a National Security Asset

Time	Event
09:00–10:00	University Leadership Forum - Vice Chancellors, ICT Directors, and Deans of Computer Science & Engineering - Building cyber threat intelligence curricula for African universities - Funding research: grants, partnerships, and government contracts - South-South cooperation in cybersecurity research - Investing in Skills and Talent Development continental agenda
10:00–11:00	RESEARCH KEYNOTE: Future Trends in Cybersecurity and AI - Where AI and CTI research converge: next-frontier opportunities - Quantum computing and post-quantum cryptography timelines - Agentic AI in security: risks, rewards, and research gaps - Africa's unique threat research opportunities
11:00–12:30	Academic Research Presentations - See parallel track for full session detail
12:30–13:30	Lunch & University Networking University-to-university bilateral meetings - Research collaboration matching

OPTIONAL BREAKPOUT ROOMS PARALLEL TRACKS

RESEARCH SYMPOSIUM	TALENT & INCLUSION STAGE
11:00–12:30: - Academic Research Presentations - AI Research for Cyber Threat Intelligence- University of Nairobi - Quantum Security Readiness for African Enterprises - Digital Forensics in Low-Resource Environments - Cyber Psychology and Human Threat Vectors - OSINT Methodologies for African Threat Actors - Blockchain for Supply Chain Security 13:30–15:00: - Inter-University Cybersecurity Forum 50+ universities across 30+ African nations - Curriculum alignment with industry CTI standards - Joint research proposals and funding strategies - Establishing Africa's Cyber Talent Academic Network	09:00–10:30: - Cyber Workforce Development Forum - Africa's cybersecurity skills gap: data and solutions - Government-funded cyber training programmes - Bridging the gap between certification and employment - Building national cyber workforce pipelines 10:30–12:00: - Women in Cyber Threat Intelligence Summit - Women CTI leaders: career journeys and breakthroughs - Closing the gender gap in African cybersecurity - Mentorship, sponsorship, and network-building - Women in Cyber Leadership Awards 13:00–15:00: - Youth Cyber Talent Forum - Africa's next-generation CTI analysts speak - Youth pathways from CTF to professional CTI careers - School-level cyber awareness and early talent identification

RESEARCH SYMPOSIUM		TALENT & INCLUSION STAGE	
15:00–16:00: • Cyber Threat Intelligence Curriculum Workshop • Designing CTI courses for African university contexts • Industry-academia certification pathways • SANS, EC-Council, and ISC2 partnership frameworks 16:00–17:00: Academic Excellence Awards • Best CTI Research Paper · Outstanding PhD Candidate • Best University Cyber Programme • Innovation in Cyber Education		15:00–17:00: • Cyber Recruitment Hub Open Hours • Live job matching · Internship placements • Enterprise and government recruitment stands • CV clinics and career coaching	
CTF & CYBER RANGE ARENA 09:00–17:00 (ALL DAY)			
Capture The Flag Competition		National University Cyber Challenge	Cyber Range Exercises
• Individual & team categories • Open and advanced divisions • Live leaderboard & scoring • Prizes: scholarships & job offers		• 50+ universities compete • CTI analysis challenge • Forensics investigation scenario • Sponsored by tech partners	• Realistic attack simulations • Incident response drills • SIEM/SOAR platform training • Vendor-sponsored scenarios
17:00–18:00	CTF & Competition Prize-Giving • National University Cyber Challenge awards, CTF competition winners · Cyber Range top performers • Scholarship and employment offer announcements		
18:00–20:00	University & Academia Networking Reception • Hosted by Kenya School of Government · Student-industry mixer		

DAY 4 – Tuesday, 30 October 2026

Government & National Security – Cyber Threat Intelligence as a National Security Asset

Time	Event
09:00–10:00	KEYNOTE: Cybersecurity as an Economic Growth Enabler - The correlation between cyber resilience and GDP growth in Africa - Financial sector threat intelligence in the age of AI - Investment flows into African cybersecurity: 2025 data and 2030 projections
10:00–11:30	Banking Security Summit - Participants: Central Banks, Commercial Banks, SACCOs, FinTechs, Mobile Money Operators - AI fraud detection and financial crime intelligence - Cyber risk modelling for African financial institutions - Compliance, digital banking security, and regulatory CTI sharing - Cybersecurity insurance and risk transfer in African finance
11:30–12:30	Insurance & Cyber Risk Forum - Pricing cyber risk in African markets: data gaps and solutions - Parametric cyber insurance models for SMEs and governments
12:30–13:30	Lunch & Strategic Partner Meetings VIP bilateral meetings, MoU pre-signing consultations
PARALLEL TRACKS	
FINANCE & FINTECH TRACK	DIGITAL ECONOMY FORUM
13:30–15:00: - Investor & Startup Summit - Venture capital perspectives on African cybersecurity - Top 10 African cyber startups pitch showcase - Innovation funding: DFIs, grants, and public-private vehicles - Africa Cybersecurity Investment Roadmap presentation	13:30–15:00: - Digital Economy & Emerging Technologies - Securing Africa's e-commerce and digital trade corridors - Smart cities and the cyber risks of urban digitization - Subsea cables, IXPs, and Africa's internet sovereignty - AfCFTA's cybersecurity dimension: digital trade security
10:00–11:00	Global Leaders Dialogue: Advancing Global Cooperation in Cyberspace - GFCE - Global Forum on Cyber Expertise - Cyberweek Israel - International Cyber Summit Partnership - Munich Cyber Security Conference - European Perspectives - Oxford Global Cyber Security Capacity Centre (GCSCC) - ITU - International Telecommunications Union - ENISA - European Union Agency for Cybersecurity - African Union - Continental Cyber Governance - Panel focus: From Bilateral to Multilateral - Africa's path to global cyber leadership

Time	Event
15:00–16:00	Strategic Partnership Signing Ceremony - Government–Academia–Industry MoU's (live signing), Cross-border CERT cooperation agreements - International research and technology partnerships, Africa Cybersecurity Investment Roadmap adoption
16:00–17:00	Cyberweek Africa 2026 Awards & Recognition Ceremony - Best Government Cyber Initiative 2026, Africa CISO of the Year · Africa CTI Team of the Year - Best Cybersecurity Startup · Best Academic Contribution, Cyberpro Global Distinguished Partnership Award - Special Recognition: Women in Cyber Excellence
17:00–17:30	Closing Keynote & Declarations - Presentation of the Nairobi Declaration on Cyber Threat Intelligence in the Age of AI - Africa Cyber Resilience Declaration 2026 - Cross-Border Threat Intelligence Framework adoption, AI Governance Recommendations for African Policymakers
17:30–18:00	Official Launch of Cyberweek Africa 2027 - Announcement of dates, theme, and host city for 2027, Call for speakers, sponsors, and partners - Cyberweek Africa 2027 Strategic Roadmap unveiled
18:00–20:00	Closing Gala Reception & Networking Dinner - VIP bilateral meetings, Cyberweek Africa Industry Awards Gala Hosted by KSG & Cyberpro Global - Best African CISO of the Year, Best Cybersecurity Innovation, Best Threat Intelligence Programme - Best Government Cyber Initiative, Outstanding Academic Contribution, Startup of the Year - Black-tie networking dinner · International delegation entertainment MASAI MARA - International delegation farewell, Live entertainment, Cultural showcase
